	Examiner ANDRE J. ALLEN	Art Unit 2855	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on 11-9-06 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Specification

3. The abstract of the disclosure is objected to because The abstract should be in narrative form and generally limited to a single paragraph. Correction is required. See MPEP § 608.01(b).

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 23-43 are rejected under 35 U.S.C. 102(b) as being anticipated by Jenniges et al (US 2001/0032499).

Regarding claims 23-44, Jenniges et al teaches an instrument module 12 44 for testing a wheel-tire assembly 10 to be tested, which permits the assembly to be orientated in all directions 135 (positioning assembly), to lean the assembly, and to apply a vertical effort to the assembly (fig. 1); first swiveling axles 30, equipped with suspensions 38 and driving wheels 34; a processing unit (inherent)[0033]associated to a memory (inherent)[0033]; and means 22 for controlling a test cycle permitting orientation of the assembly, and a load 106 applied to the assembly to be controlled.

Allowable Subject Matter

Art Unit: 2855

5. Claims 43-44 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: Regarding claim 43 the cited prior art does not disclose nor suggest learning an ideal trajectory, by moving the test rig at low speed along a longitudinal axis of the track, with acquisition of points of the trajectory using the positioning system; and one or more test steps.

Conclusion

The prior art as cited on the 892 is made of record and not relied upon is considered pertinent to applicant's disclosure.
